Cost Cutting Solutions for Efficient Business Process Management

eDocumentus

Prozone is offering solutions that can empower governmental organizations to efficiently manage all documentation and all processes related to organizing, creating, distributing and reviewing documents within the existing set up. This system allows government institutions to dramatically improve its workflow process, by creating significant savings in man-working hours, providing an evermore efficient service to the members of the public. Prozone has successfully implemented a number of projects ranging in size from local governments to provincial and state size e-government projects.

Besides internal systems that are commonly deployed for the various government institutions and bodies, Prozone also provides solutions that allow interaction with members of the public.
